**RESPONSE TO A RESTRICTION REQUIREMENT**

Dear Sir/Madam:

Claims 1-61 are pending in the above-referenced Application, and have been subjected to a Restriction Requirement dated October 18, 2002.

In response to the Restriction Requirement, Applicants elect the claims of Group I (claims 1-7, 9-14 and 61), drawn to a member of the FRIL protein family, for examination at this time.

This election is made with traverse as to Group II (Claim 8), and without traverse to as to Groups II-VIII.

Applicants respectfully aver that examination of the inventions of Groups I and II would not be unduly burdensome to the Examiner. In particular, Claim 8, the sole claim in Group II, is drawn to a nucleic acid encoding a composition comprising a FRIL family member, as claimed in Claim 1. Applicants respectfully aver that any search for a FRIL family member, as encompassed by Claim 1, would also inevitably unveil art related to Claim 8. Thus, Applicants

respectfully aver that examination of Claim 8 with Claim 1 would not be unduly burdensome to the Examiner.

**Conclusion**

Applicants submit that the Application is ready for substantive examination. If the Examiner believes that any further discussion of this communication would be helpful, s/he is encouraged to contact the undersigned by telephone.

No additional fees are believed to be due in connection with this communication. However, please apply any additional charges, or credit any overpayment, to our Deposit Account No. 08-0219.

Respectfully submitted,  
HALE AND DORR LLP
